

Stop spending \$1,800–3,000 on every training video.

Drop a PowerPoint. Pick a language. Layer in a sign-language interpreter or presenter overlay if you need one. Export an MP4 in 5 minutes — no voice actor, no studio, no editor.

Solves these challenges

\$1,800–3,000 per video

Voice actor + studio + editor + 2 weeks of back-and-forth — every single time.

Translate the video again

Need a Spanish version? Start the whole pipeline over for every market you ship to.

Speaker notes go to waste

Hours writing them, then they sit in the .pptx file — never seen by anyone.

"Talking-head" video tools miss the point

Synthesia animates a face. Loom records your screen. Neither turns slides into video.

Key features

1

Drop & narrate

Drag a PPTX or PDF. Speaker notes become the script automatically.

2

47-language AI voice

Edge Neural TTS delivers near-human quality across 47 languages.

3

Audio-first workflow

Export narration as WAV first, then build slides or wipe footage to fit.

4

Picture-in-picture overlay

One PIP slot. Drop in a presenter, branded watermark, or

5

SCORM 1.2 LMS export

Drop straight into Moodle, TalentLMS, Cornerstone. Resume bookmark +

6

Pro export

MP4 up to 1080p · auto subtitles · BGM library · 8 transitions · thumbnails.
